- **Net debt** decreased by AED 49.8 million in September 2023 at AED 1.5 billion compared to AED 1.45 billion in June 2023 mainly due to payment of AED 109.9 million interim dividend in UAE and minority in other units. Net debt to EBITDA decreased from 2.43x in Q2 2023 to 2.42x in Q3 2023.

Revenue highlights

Strategic highlights

Expansion projects

- The capacity expansion of tableware manufacturing by 10 million pieces in the UAE has been successfully finalized, and the trial testing phase for commercial production has begun. The subsequent production increases will be implemented gradually, in accordance with market demand.
- Upgrading the UAE and India production facilities is also under evaluation, with the goal of bringing in production efficiencies driven by innovation and improve the current production capacity.
- In Bangladesh, upgradation work to enhance the existing tiles line is under implementation. Commercial production is set to commence in Q1 2024

Greenfield projects

- All the required approvals and permissions for the Bangladesh Faucets plant, including the land mutation certificate have been obtained. The next steps involve completing the design of the factory layout and commencing construction in Q4 2023.
- Having a production facility in KSA continues to work on.

Operational & financial highlights

In light of the ongoing market volatility and the challenging geopolitical environment, RAK Ceramics has weathered these headwinds with resilience. While our revenue experienced a 7.7% decline in Q3 2023, our strategic shift in product mix has been instrumental in sustaining our gross margin, a testament to our adaptability and forward-thinking approach. In the face of competition and pricing pressures in UAE, we achieved an impressive 23.4% year-on-year revenue growth in Q3 2023. This remarkable performance was driven by our strategic pivot towards project channel sales, highlighting our ability to identify and seize opportunities in dynamic markets. The formidable competition posed by local players did affect our revenue in certain regions, but our commitment to offering differentiated products allowed us to safeguard our gross margins. In KSA, revenue dipped due to local competition, but higher gross margins were achieved through increased interest in unique products. In Europe, especially in the UK, recession fears, currency devaluation, and higher interest costs contributed to a downturn, impacting Sanitaryware and KLUDI's performance. However, rationalization of freight cost compared to last year has allowed us to relatively improve the overall margins in Europe. In India, despite lower demand and currency devaluation, we achieved a 5% year-on-year revenue growth in Q3 2023. In Bangladesh, currency devaluation and local competition affected revenue, but anticipated future expansion is on the horizon, particularly in light of the foreseen political stability following the upcoming elections. On a positive note, our Tableware business displayed robust growth, with increase in revenue by 2.5% year on year and gross profit margins by 110bps year on year. Below table depicts comparative results (AED m)-

2. Application of new and revised International Financial Reporting Standards (“IFRSs”)

The accounting policies used in the preparation of the condensed consolidated interim financial information are consistent with those used in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2022, and the notes attached thereto, except for the adoption of certain new and revised standards, that became effective in the current period as set out below.

2.1 New and revised IFRSs adopted by the Group

In the current period, the Group has applied the following amendments to IFRSs issued by the International Accounting Standards Board (“IASB”) that are mandatorily effective for an accounting period that begins on or after 1 January 2023. The application of these amendments to IFRSs has not had any material impact on the amounts reported for the current period but may affect the accounting for the Group’s future transactions or arrangements.

- IFRS 17 ‘Insurance Contracts’ relating to providing a more uniform measurement and presentation approach for all insurance contracts.
- Amendments to IFRS 10 ‘Consolidated Financial Statements’ and IAS 28 ‘Investments in Associates and Joint Ventures’ (2011) relating to the treatment of the sale or contribution of assets from an investor to its associate or joint venture (effective date deferred indefinitely, early adoption permitted).

25. Hyperinflationary economy (Continued)

The above mentioned restatement is affected as follows:

- Hyperinflation accounting was applied as of 1 January 2020;
- The condensed consolidated statement of profit or loss is adjusted at the end of each reporting period using the change in the general price index and is converted at the closing exchange rate of each period (rather than the year to date average rate for non-hyperinflationary economies), thereby restating the year to date condensed consolidated statement of profit or loss accounts both for inflation index and currency conversion;
- Monetary assets and liabilities are not restated because they are already expressed in terms of the monetary unit current at the date of the condensed consolidated statement of financial position. Monetary items are money held and items to be recovered or paid in money; and
- Non-monetary assets and liabilities are stated at historical cost (e.g. property plant and equipment, investment properties etc.) and equity of the subsidiary is restated using an inflation index. The hyperinflation impact resulting from changes in the general purchasing power until 31 December 2022 were reported in Hyperinflation reserve directly as a component of equity and the impacts of changes in the general purchasing power from 1 January 2023 are reported through the condensed consolidated statement of profit or loss in a separate line as a loss on net monetary position, besides having the impact on depreciation charge for the period.
- All items in the consolidated statement of profit or loss are restated by applying the relevant quarterly average or year-end conversion factors.

27. Acquisition of subsidiaries (continued)

- A. Gain on bargain purchase represents the difference between purchase consideration and fair value of net assets acquired and is recognized in the condensed consolidated statement of profit or loss. The fair value of the assets and liabilities have been determined by an external expert.

During the prior period from the date of being accounted for as subsidiaries to 30 September 2022, the units contributed aggregate revenue of AED 161.99 million and a net loss of AED 18.02 million to the Group's result.

Had this acquisition been effective 01 January 2022, it would have resulted in additional revenue of AED 198.22 million and incurrence of additional loss of AED 45.99 million.

- B. During the nine months period ended 30 September 2022, the Group had acquired a further 41% of interest in one of its subsidiaries, RAK Porcelain LLC, UAE, for a consideration of AED 225.5 million and thereby increased the shareholding of the Group to 91%. The Group had recognized:

	AED'000 (unaudited)
- Decrease in non-controlling interest	(86,695)
- Decrease in retained earnings	(138,805)
Total consideration paid	(225,500)

28. Operating Lease

As Lessor:

Certain Group entities lease out their investment properties under operating leases. The leases typically run for a period of one year to five years, with an option to renew the lease after that date. Lease rentals are usually reviewed periodically to reflect market rentals. Below are the lease rents receivable in future:

	30 September 2023 AED'000 (unaudited)	31 December 2022 AED'000 (audited)
Less than one year	13,552	4,208
Between two and five years	36,842	9,592
	50,394	13,800

29. Segment reporting

Basis for segmentation

An operating segment is a component of the Group which engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components.

Segment results which are reported to the Company's CEO (chief operating decision maker) include items directly attributable to a segment as well as those which can be allocated on a reasonable basis. Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment, and intangible assets other than goodwill.

The Group has broadly three reportable segments as discussed below, which are the Group's strategic business units. The strategic business units operate in different sectors and are managed separately because they require different strategies. The following summary describes the operation in each of the Group's reportable segments:
